

Editorial Calendar

January / February

Editorial Closing:
November 27, 2017

Ad Closing:
December 1, 2017

FEATURED SECTIONS: Wearable Technology

- Sensors, software, textiles, Bluetooth-enabled ICs, core microprocessors, Smart chips
- Ruggedized hardware platforms
- Wireless charging
- Virtual reality

Interconnect Devices

- Interconnect devices, terminal blocks
- IC sockets
- Wire and cable
- Backplanes & PC-board packaging

Optoelectronics

- LED, LCD, CRT, EL, VF, membrane, etc.
- Display panels, systems, modules, touch screens
- Optoelectronic devices, fiber optics

Transportation

(Aerospace, Land, Marine)

- Electric vehicle technology
- Procurement & technological issues/software modernization
- Autonomous (driverless) vehicles
- Drones

March / April

Editorial Closing:
January 24, 2018

Ad Closing:
January 26, 2018

FEATURED SECTIONS: Automation / Robotics

- Industrial computers, PLC-based, controls, displays, networking
- Artificial Intelligence (AI) Applications in Industrial OEM
- Vision, controllers, motors, cameras, sensors, software
- Robots

Quantum Computing & Data Centres

- Computing tech
- Research education
- Servers, storage subsystems, networking switches, routers, firewalls, cabling, racks.

Power

- Energy management
- Power supplies
- Batteries, battery packs, hardware
- Chargers, conditioners
- Rechargeable technologies

Switches & Circuit Protection

- Toggle, pushbutton, rocker, slide, DIP, etc., switches
- Circuit breakers, fuses, resettable devices
- Panel indicators
- Industrial switches, sensors
- **EPTECH show bonus circulation MARKHAM, MONTREAL, OTTAWA**

May

Editorial Closing:
March 27, 2018

Ad Closing:
March 16, 2018

FEATURED SECTIONS: IoT

- Connectivity, microprocessors, microcontroller based encryption, application software, CPUs, memory, hardware blocks
- IoT security safeguarding connected devices, networks
- Smart home technologies

Test & Measurement

- Oscilloscopes, meters, analyzers
- Test equipment, systems (ATE), software counters, transducers
- RF test
- Data acquisition, loggers

Electronic Enclosures & Thermal Management

- Enclosures, racks, chassis
- PC-board, system packaging
- Cooling devices (fans, heat sinks)
- EMI/RFI control
- Enclosure cooling solutions

Embedded Systems & Engineering Software

- PC-board, IC, system design software
- Industrial automation software, networking
- EDA, engineering software
- Embedded computer robotics

June / July

Editorial Closing:
May 9, 2018

Ad Closing:
April 27, 2018

FEATURED SECTIONS: Medical Electronics

- Components, miniaturization
- Standards, regulations, outsourcing
- Market Trends
- Healthcare & bioscience applications

Semiconductors & ICs

- Microprocessors/microcontrollers
- Processors (MPUs, MCUs, embedded)
- Discrete, power semis
- Programmable devices, FPGAs & PLDs
- Memory, LED drivers
- IC packaging materials

Supply Chain Management

- Distribution service providers, trends, issues
- Supply chain software, infrastructure
- Distributor news

Production Equipment

- PCBs, materials, chemicals, static-control products
- Equipment, board cleaning materials, soldering, rework
- Conformal coatings

- **EPTECH show bonus circulation VANCOUVER, CALGARY**

February - ElectroSource Directory

Early Closing: Oct. 27, 2017 • Ad Closing: Jan. 12, 2018

Canada's only electronics industry directory available in a printed & digital format.

Mailed to EP&T's circulation list that leads the Canadian market with the...

- Largest engineering job titles
- Largest purchasing job titles
- Largest OEM titles
- Largest R&D job titles
- Largest number of current qualified names

SECTION 1

Alphabetical company listings of suppliers and distributors

SECTION 2

Product reference guide

SECTION 3

Manufacturers and sales companies listed alphabetically with the names of local representatives

August

Editorial Closing:
June 25, 2018

Ad Closing:
June 20, 2018

FEATURED SECTIONS:

Contract Electronics Mfg **SPECIAL FEATURE**

- SMT, through-hole assembly, manufacturing, production, rework equipment
- CEM services, trends, profiles, business news
- Re-shoring

Industrial Automation

- Industrial computers, PLCs, displays, networking
- Industrial sensors, transducers, connectors, terminal blocks, wire & cable
- Vision, controllers, motors
- Robotics

Power Management

- Solar
- Batteries, battery packs
- Dc power supplies, ac power systems
- Chargers, conditioners, dc-dc converters
- Power management ICs

Wearable Tech & Sensors

- Sensors, software, textiles,
- Bluetooth-enabled ICs, core microprocessors, Smart chips
- Ruggedized hardware platforms
- Wireless charging
- Virtual reality

September

Editorial Closing:
July 25, 2018

Ad Closing:
July 27, 2018

FEATURED SECTIONS:

Wireless Designs

- ICs, semiconductors & components for RF and IR wireless applications
- RF, microwave, wireless test equipment, software
- Bluetooth & RFID technology
- 5G development

Connectors

- Terminal blocks
- IC sockets
- Cables, wire harnesses
- Backplanes & PC-board packaging
- Interconnect devices
- Wire & Cable

Sensors

- Optical, position, proximity, image, magnetic, motion, temperature, speed, sound sensors.
- Transducers and actuators
- Analog and digital sensors.

Embedded Systems

- Embedded operating systems
- Engineering software
- Electronic design automation
- Desktop, rack, industrial, embedded computers
- Hardware, peripherals
- **EPTECH Show bonus circulation WINNIPEG**

October

Editorial Closing:
August 30, 2018

Ad Closing:
August 31, 2018

FEATURED SECTIONS:

Distribution / Supply Chain Management

- Trends in electronic components distribution
- Value-added supply-chain services
- Manufacturers' representatives news

Medical Electronics

- Biomedical instrumentation, Components
- Combined biological and electronic systems
- New product applications and technological advancements
- Devices with closed-loop sensors

Test & Instrumentation

- Electronic, virtual instrumentation
- Test equipment, systems (ATE), software
- Industrial meters, instruments, test systems
- Data acquisition, loggers
- RF test

Printable Electronics

- Inks and printing/imprinting processes
- Organic semiconductors, matching dielectrics and conductive nanoparticles.
- Graphene nano-sheets, polymers, thin-film transistors.
- Nanotechnology

- **EPTECH show bonus circulation MISSISSAUGA, WATERLOO**

November / December

Editorial Closing:
September 28, 2018

Ad Closing:
September 26, 2018

FEATURED SECTIONS:

Prototyping / Maker

- Prototype and 3D printers and materials
- Development kits, boards
- Open hardware platforms
- Embedded software
- Scale-up facilities

Power Supplies, Batteries

- Ac, dc power supplies
- Batteries, battery packs, chargers, conditioners
- Power management ICs, inverters
- Power-related components, hardware, accessories

IoT / Security

- Connectivity, microprocessors, microcontroller based encryption, application software,
- IoT security safeguarding connected devices, networks
- Smart home technologies

Thermal Management & Enclosures

- Thermal management (fans, heat sinks, etc)
- Enclosures, racks, frames, chassis
- Enclosure cooling solutions
- EMI/RFI control
